

STOP THE ARKANSAS MARIJUANA AMENDMENT

ARKANSAS DOES NOT NEED ANOTHER DRUG PROBLEM.

Deadly meth, opioids, heroin, and fentanyl are already destroying too many lives.

★★★★★ **ENOUGH IS ENOUGH!** ★★★★★

DECLINE TO SIGN THE PETITION

Arkansas **ALREADY** has medical marijuana, so what does the 2024 marijuana amendment **REALLY** do?

- Gives **free marijuana cards** to immigrants and out-of-state residents.
- Allows unlimited advertising of marijuana **products that appeal to children**.
- Creates an **out-of-control monopoly** for the marijuana industry.
- Allows people to **grow marijuana in their backyard** and process it at home.

Supporters of the Arkansas Medical Marijuana Amendment are working to gather at least 90,704 voter signatures on petitions by July 5, 2024.

- **Dangerous tetrahydrocannabinol (THC) extract** will be laced into child-luring gummy bears, chocolates, cookies, and soft drinks.
- Our **schools don't need more drugs** to deal with.
- Our state does not need **more addicts**.
- **Love our neighbors and seek the welfare of our cities.** In every state where marijuana has been legalized, communities, families and **children have been harmed**.

**STOP THE ARKANSAS MEDICAL
MARIJUANA AMENDMENT**

**DECLINE TO SIGN
THE PETITION**

GET THE FACTS

FREE MARIJUANA CARDS: This amendment gives free marijuana cards to immigrants and out-of-state residents at a cost to Arkansas taxpayers. Just like in Colorado, California, and Oregon, people from out-of-state will flood our streets with marijuana.

RECREATIONAL MARIJUANA BY ANOTHER NAME: Arkansas already has medical marijuana. This is recreational marijuana by another name. Under this amendment, healthy people could qualify for a free marijuana card because they will no longer need a doctor's certification saying they suffer from a specific condition listed in state law. That means people may be able to use marijuana without proving they have a qualifying medical condition. This is not true medicine or healthcare.

UNCONTROLLABLE MONOPOLY: The marijuana industry crafted this amendment and they are writing themselves and marijuana into our state constitution. The amendment prohibits the Arkansas Legislature, cities, or counties from passing any laws, including zoning and taxes, to regulate marijuana use.

FOLLOW THE SCIENCE

MORE STONED PEOPLE DO NOT HELP SOCIETY: According to the National Institutes of Health, Mayo Clinic, the Cleveland Clinic, and the World Health Organization, marijuana is addictive, and it can produce withdrawal and dependence. Today's marijuana is many times more potent than in the past.

HARM TO MOTHERS AND CHILDREN: Using marijuana during pregnancy causes complications and it can affect the child later in life causing problems with attention, memory, problem-solving skills, and behavior. Children and infants who are exposed to secondhand marijuana smoke can experience the same issues as the smoker.

National Academies of Sciences, Engineering, and Medicine. The health effects of cannabis and cannabinoids: current state of evidence and recommendations for research. Washington, DC: The National Academies Press; 2017.

MARIJUANA POISONING: Adults who consume food or drinks laced with high concentrations of tetrahydrocannabinol (THC) can experience marijuana poisoning. Children can be poisoned by consuming marijuana candy, cookies, soft drinks or other marijuana edibles.
